

6516207697.txt

I pay a premium to listen to good programming on my car radio and not be subject to some of the garbage on the air today. Please make a change in business as usual i.e. letting special interests dictate poor decisions. If XM-Radio can afford to offer its subscribers more for their bucks, let them do it. Maybe FM & Am radio will clean up their acts and provide programs that will compete.

Thank You

Peter Salvesen
